

**Workforce Innovation and Opportunity Act Policy**  
**Employment System Administration and Policy**

---

---

Washington envisions a nationally recognized fully integrated One-Stop system with enhanced customer access to program services, improved long-term employment outcomes for job seekers and consistent, high quality services to business customers. In order to achieve this vision, Employment System Administration and Policy sets a common direction and standards for Washington's WorkSource system through the development of WorkSource system policies, information memoranda, and technical assistance.

---

---

**Policy Number:** 5616  
**To:** Washington WorkSource System  
**Effective Date:** April 5, 2016  
**Subject:** Customized Training

**1. Purpose:**

To provide guidance on customized training provided under Title I of the Workforce Innovation and Opportunity Act (WIOA).

**2. Background:**

Competitively procured contracts may be used to pay for group training, in lieu of individual training accounts, when the training is otherwise approvable under federal and state law and policy, and only if the individual's rights for consumer choice are not superseded.

Customized training should be considered when available training programs and/or curricula do not meet the specific training requirements of employer(s).

**3. Policy:**

**a. Customized Training Requirements**

- i. Customized training must be:
  - A. Used to meet the special requirements of an employer or group of employers;
  - B. Conducted with a commitment by the employer(s) to employ all individuals upon

- successful completion of the training; and
  - C. Paid for, in part, by employers, who must pay a “significant cost” of the training. Local Workforce Development Boards (LWDBs) will define “significant cost”.
- ii. Individuals considered for customized training must meet eligibility requirements for Adult or Dislocated Worker programs. Employed individuals may be considered for customized training under specific conditions. An employed individual being considered for customized training must:
- A. Not be earning a self-sufficient wage as determined by LWDB policy;
  - B. Meet the Fair Labor Standards Act requirements for an employer-employee relationship; and
  - C. Receive training that incorporates new technologies, processes, or procedures; offers skills upgrades; provides workplace literacy; or serves other appropriate purposes, as identified by the LWDB.

**b. Guidelines and Considerations for Local Policy Development**

LWDBs that choose to allow customized training must have a customized training policy.

- i. At a minimum, LWDBs must consider the following factors when developing local policy:
- A. Identify parameters for when customized training would be used, including;
    - I. The characteristics of individuals or groups of individuals to be trained, and how they would benefit;
    - II. The quality of training (e.g., industry-recognized credentials; other credentials or exams validated by industry, trade or professional associations; advancement opportunities);
    - III. The number of participants the employer plans to train or retrain;
    - IV. The wage and benefit levels of participants (before and after training); and
    - V. The occupation(s) for which customized training is being provided must be in demand as defined by WIOA Section 3(23) and as determined by workforce development area-specific labor market information produced by ESD.
  - B. Include criteria for approval of employers to receive customized training funding:
    - I. The employer’s industry sector must be:
      - 1. In demand as defined by WIOA Section 3(23) and determined by ESD labor market information; or
      - 2. In balance as determined by ESD labor market information; or
      - 3. Declining, but there are compelling reasons (e.g., evidence of long-term viability of the employer) justifying investment in customized training.

II. The employer must:

1. Be current in unemployment insurance and workers' compensation taxes, penalties, and/or interest or related payment plan;
2. Be located in Washington State;
3. Be currently liable for Washington State Business and Occupation tax;
4. Be in need of assistance in training future and current employees;
5. Be able to contract for customized, short-term, training services (typically less than 6-9 months); and
6. Not have laid off workers within 120 days to relocate.

C. Identify employer share of training costs:

- I. LWDBs must track and document employer cost share contributions. When determining a "significant portion of the cost of the training" the LWDB must take into account the size of the employer, and other appropriate factors, such as:

1. The number of employees participating in training;
2. Wage and benefit levels of those employees (before and after training);
3. Relation of the training to the competitiveness of a participant; and
4. Other employer-provided training and advancement opportunities.

II. Suggested Cost Share Methodologies for Employers Located in One Area:

1. One method for determining employer share of training costs is to base it on the size of the workforce. Wages paid to the participant while in training can be included as part of the share and the share can be provided as cash or in-kind that is fairly evaluated. An example of employer share would be:
  - a. At least 10 percent of the cost for employers with 50 or fewer employees
  - b. At least 25 percent of the cost for employers with 51 to 100 employees
  - c. At least 50 percent of the cost for employers with more than 100 employees
2. Another method is to cap training costs. For example, per trainee allowances may be capped at \$3,000 for business employing 50 or more positions in Washington prior to training and \$6,000 for businesses employing less than 50 positions in Washington prior to training.

III. Employer Share of Training Costs for Employers Located in Multiple Areas:

The Governor has determined that a “significant portion of the costs of the training” for customized training involving an employer located in *multiple* local areas in Washington is as follows:

1. At least 10 percent of the cost for employers with 50 or fewer employees
2. At least 25 percent of the cost for employers with 51 to 100 employees
3. At least 50 percent of the cost for employers with more than 100 employees

D. Describe how contracted training providers will be monitored and audited.

#### **4. Definitions:**

Customized training -- Training that is designed to meet the specific requirements of an employer (including a group of employers), that is conducted with a commitment by the employer to employ an individual upon successful completion of the training, and for which the employer pays a significant portion of the cost of training.

In the case of customized training involving an employer located in multiple local areas in the State, a significant portion of the cost of the training is determined by the Governor.
