Funds Administration Flexibility:

In the wake of federal sequestration and rescission impacts on WIA funding, DOL/ETA issued TEGL 27-12, which described opportunities for funds administration flexibility. Like TEGL 09-11 (October 2011), which followed a prior rescission, DOL/ETA described required WIA state administrative activities that it would or would not waive. It held firm on required activities it would not waive and expanded the list to cover dissemination of training provider performance and cost information. WCDD's assessment is that the WIA waiver opportunities presented are not new and that ESD, WTECB, and WDCs are currently exploring a number of them. DOL/ETA also described a number of Rapid Response options, namely formula mitigation of Rapid Response state funds (which is being communicated in this WIN), use of Rapid Response Additional Assistance grants (also being done), and layoff aversion. As it pertains to discretionary allocation and reallocation of formula funds between PY13 and FY14 and among local areas, DOL/ETA effectively stated such maneuvering was not allowed.
