

# MONSTER CLOUD SOLUTIONS

Your end-to-end arsenal of custom recruitment tools

30% of recruiters believe the tools they're using actually get in the way of doing their jobs. And only 6% say they even have the right tools to begin with.<sup>1</sup>

What if you could increase recruitment ROI, reduce complexity, and find quality talent in the quantity you need—all with cloud-based efficiency?

With Monster Cloud Solutions, you have all your recruitment bases covered—sourcing better talent, matching talent to your open positions, and maximizing existing talent pools. In other words: you'll boost your productivity and your ROI.

## MAXIMIZE YOUR EXISTING TALENT POOL

No matter where you sourced your resumes - from Monster, other job sites, social networks, referrals, or internal candidates - you can search them all in one place, using Monster's 6Sense® semantic search technology. Instantly.

## UNDERSTAND THE LABOR MARKET

With data from your own talent pools, you can forecast, plan, and manage.

## COMMUNICATE WITH TALENT

Launch an email campaign with targeted messaging to reach active and passive candidates in your talent database. You can also add a follow-up campaign to maximize response, and review campaign response data for insights into candidate behavior.

Only Monster offers clients an end-to-end, robust sourcing and talent management system, that allows clients to utilize Monster's award winning 6Sense semantic search technology.

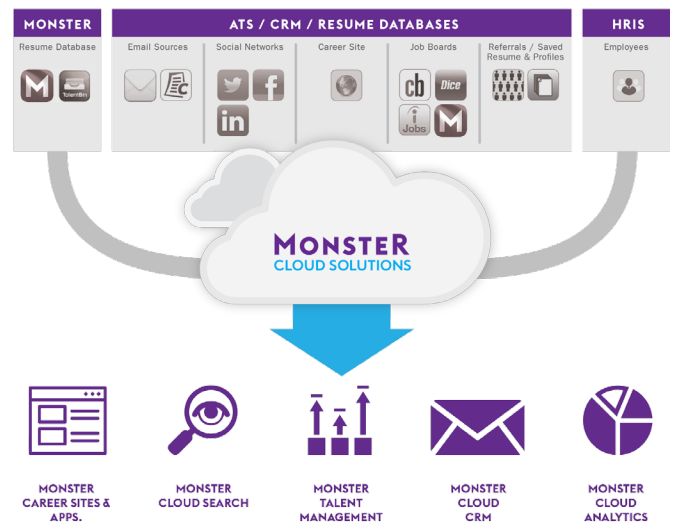

## ALL-IN-ONE SOLUTION

Cover the full talent life cycle and every critical process in between - from recruiting to off-boarding - with a fully integrated, hosted talent management solution.

## CUSTOM SITES & APPLICATIONS

Upgrade your career site experience and more with fully-customizable sites and applications for candidates, employees and recruiters. We'll work with you to produce the career site or matching services you need to stay ahead of your competition.
